

Disclosure Log

The Electricity Regulatory Authority (ERA) disclosure log is updated regularly and provides details of Freedom of Information requests submitted to the ERA that we feel may have a wider public interest.

The ERA disclosure log does not list everything that has been released by the ERA under the Freedom of Information Law, 2007. Some responses consist of large numbers of documents that are not held in electronic format. Where practical, the documents concerned have been scanned and made available online.

In addition to a summary of the original request, the ERA disclosure log indicates whether or not the information was released and what exemptions, if any, were applied. Where the actual reply has been reproduced, the applicant's name and any other personal details have been deleted.

ERA Freedom of Information Disclosure Log			
Request Number	Request Description	Outcome	Exempt (Relevant section / subsection)
